Andrew has developed and implemented litigation and administrative strategies for clients in several fields and industries. He regularly works with practice groups across BakerHostetler to identify and tackle complex issues, advise on administrative law and strategy, tee up issues for appeal and tackle appeals.

In addition to his practice, Andrew advises members of Congress on matters of constitutional and administrative law, having testified more than a dozen times before the House and Senate Judiciary Committees. He has been a frequent legal commentator on radio and television, having appeared on Fox News, CNN, MSNBC, CNBC, NPR and its affiliates, CBN and elsewhere. He is also a member of the leadership of the Federalist Society, and previously served as a fellow and policy analyst at the Heritage Foundation's Meese Center for Legal and Judicial Studies. Experience

- Obtained a favorable outcome on the first-ever decision from the United States Court of Appeals for the Ninth Circuit recognizing the right to obtain pre-enforcement review of agencies' compliance with the Paperwork Reduction Act. The decision set a powerful precedent for regulated parties to challenge unlawful government action.
- Developed and executed a nationwide litigation strategy to recognize and enforce public workers' First Amendment associational rights in the wake of the Supreme Court's decision in *Janus v. AFSCME*.
- Represented the Center for Class Action Fairness and several objecting class members in a high-profile challenge to the use of cy pres awards in class action settlements. Obtained a rare solo opinion respecting certiorari by the Chief Justice criticizing the use of cy pres remedies and subsequently obtained a grant of certiorari from the Supreme Court in *Frank v. Gaos*.
- Developed and executed a litigation strategy to repel an unlawful investigation launched against a major D.C. policy institution in retaliation for its First Amendment-protected advocacy that resulted in abandonment of the investigation.
- Lead the litigation team that repelled efforts by the Patent and Trademark Office to cut off a prominent inventor's entitlement to issuance of patents and won judgments entitling the inventor to issuance of three significant patents.
- Represented national political party delegate in successful challenge to strike down Virginia's delegate-binding law.
- Collaborating with David Rivkin, developed and executed litigation campaign to halt unlawful campaign-finance investigation aimed at silencing political speech in Wisconsin, ultimately leading to the wholesale reform of Wisconsin campaign-finance law.
- Represents a national talk-radio host in high-profile libel suit raising novel First Amendment issues.

- Represents a major D.C. think tank and one of its fellows in their First Amendment defense to defamation claims brought by a climate activist. Established, in that litigation, right to interlocutory appeal under D.C. Anti-SLAPP Act.
- With David Rivkin, served as counsel to 28 states challenging the EPA's Clean Power Plan before the United States Supreme Court and Court of Appeals for the D.C. Circuit, winning a rare stay of regulation.

Because Suzanne sees her connection with her clients as a partnership, clients feel that she is part of their team while she works to navigate their needs and concerns.

Suzanne is ranked in *Chambers USA: America’s Leading Lawyers for Business*, where she has gained “particular praise for her work in securities. Clients note that she is ‘very good, responsible and cost-effective,’” (Chambers USA 2015). She also is listed in The Best Lawyers in America®. Experience

- Represented a long-standing client of the firm in a \$1.1 billion conversion offering of senior notes and preferred shares. Client priced a deal within two weeks after seizing an opportunity to take advantage of public market conditions, giving the team minimal time to prepare and file a registration statement with the SEC, finalize offering materials, prepare an amendment to company’s articles of incorporation and negotiate an underwriting agreement, while also coordinating with the client, the underwriter and its attorneys, the transfer agent and the trustee on underlying documentation. With her ability to draw resources together quickly and her understanding of the way in which the client operated, she addressed necessary matters within the limited time frame.
- Advised company on its governance, structure and corporate policies, as well as on executive compensation matters, for its initial public offering. Team members involved in this representation were chosen for their extensive IPO experience, as well as their ability to work with the issuer’s counsel that had been hired by a private equity firm to ensure that all the client’s constituencies were protected. Helped client put structure policies in place to make the transition into a public company, and the subsequent functioning as a public company, as easy as possible.
- Designed executive compensation programs and disclosures around

an initial public offering for a longtime BakerHostetler client. Representation of client required an understanding of corporate governance, shareholder views, tax issues, and SEC disclosure and reporting issues within the industry.

- Performed work as member of a team serving as primary legal counsel to interrelated family trusts. Provided advice associated with trust administration and fiduciary compliance matters. Advised trusts on consolidated investment policy under applicable law, securities matters related to investments held in sub-trusts, decanting the situs change issues associated with revocable trust entities, and income shifting analysis under domestic and foreign tax accounting rules.

Overview

Robert Julian has more than 35 years of experience resolving high stakes disputes for his clients in complex litigation involving multiple parties and claims, breach of fiduciary duty cases and related corporate investigations, with an emphasis on such cases in an insolvency setting. In the past several years, Robert has successfully defended more than \$1 billion in five cases, and supervised the recovery of more than \$500 million in plaintiffs' cases for his clients.

He has substantial experience with issues that arise in troubled company settings, including fiduciary duty and agency disputes; insider control; director, officer, and professional liability claims, and related authority issues; direct vs. derivative shareholder claim ownership disputes; treatment of insurance coverage; fraudulent and preferential conveyances; joint venture disputes; pension claim disputes; disguised loan and other property of the bankruptcy estate disputes; alter ego and equitable remedies; lender-debtor disputes; mandatory and equitable subordination claims; right to jury trial and bankruptcy jurisdiction battles; resolution of plaintiff claims in bankruptcy; withdrawal of the reference; centralization of tort claims in the bankruptcy and district courts; abstention over claims in favor of state court; and insurance receivership disputes; and bank and bank holding company failures.

Experience

- In Cayman Islands and Delaware litigation, obtained full indemnification of client's \$125 million liability and litigation costs in case filed against fund auditors and manager.
- Created the strategy and managed ten years of plaintiff's litigation for large utility/telecommunications client, leading to the only insolvent utility/telecommunications bankruptcy that turned into a solvent entity with over \$100 million of plaintiff recoveries and the defense of multiple claims. Case involved three separate plaintiff's suits against directors, officers, investment firm, law firm; defense of multiple creditor claims; resulting in asset pool that paid unsecured creditors and preferred shareholders in full, and distribution to common stockholders.
- Obtained state court judgment enforcing consultant's right to arbitrate contract dispute and Court of Appeal affirmance of judgment.
- Settled shareholder derivative claims against holding company directors, and represented directors in resolution of FDIC claims and resulting government investigation.
- Resolved corporate claims against CEO at conclusion of confidential internal investigation.
- Achieved favorable outcome while defending officer of failed property mortgage insurance company on trade secret claims.
- Defended seller of major company against claims for breach of an equity purchase agreement and alleged violation of confidentiality and anti-competition provisions of the agreement. Resolved the case on favorable terms after six months of litigation.

- Successfully defended client against a claim filed for a share of a \$600 million estate and an insurance policy that defended such claims, after the probate estate was distributed and closed.

- Represented a paint trade association in a two-week trial over the constitutionality of a \$20 million annual state regulatory fee, successfully obtaining a judgment upholding the assessment as a valid regulatory fee.
- Negotiated a \$28 million settlement on behalf of client who served as a trustee of a failed company that sold all its assets without shareholder approval.
- Defended director of a failed Silicon Valley firm in a \$50 million lawsuit regarding breach of duty to creditors while in the "zone of insolvency," resulting in the California Court of Appeal's first published decision on the duties of directors in the "zone of insolvency."
- Represented beneficiary of late client's trust instruments in actions to set aside gifts to his lawyers, and for related damages. Obtained a court ruling on a punitive damages discovery motion that client's counsel "appears to have been deceptive about his actions and likely engaged in unethical behavior with respect to the disposition of client's estate, and there is a good chance that Plaintiff may prevail under her legal malpractice claim at trial." Settled both actions on eve of trial.
- Represented trustee in action against directors and officers of a failed telecom company for breach of fiduciary duty and waste on eve of bankruptcy filing, recovering \$21 million in mediation on eve of trial.
- Represented insurance holding company in Chapter 11 reorganization case involving question of whether the bankruptcy court could enjoin a judgment creditor's enforcement of a \$42 million fraud judgment against the debtor's insurance subsidiary, which could not file for bankruptcy protection under federal law. Obtained injunction protecting insurance company pending appeal of judgment.
- As lead insolvency litigation counsel, valued and structured out of court settlement matrix for resolution of asbestos claims against asbestos product manufacturer.
- Represented taxpayers in action to recover sales tax they paid on their purchases of coal, on the grounds that taxpayers' conversion of chemical energy in coal to electrical energy was a "resale" of the energy in coal, and hence not a taxable transaction under California's "resale" tax exemptions.

district, bankruptcy and state courts, negotiated a \$19 million recovery: subordination/avoidance of a \$15 million secured claim; and \$4.25 million cash payment.

- Represented consulting M&A and strategic advisory firm in the defense of \$160 million of claims filed by securities class action plaintiffs in bankruptcy and district court. Responsible for four-year litigation strategy that resulted in complete defense of all claims, and estate's right to a \$13 million fund derived from proxy solicitation on eve of bankruptcy.
- Represented client in multi-party litigation involving the Department of Corporations and FSLIC, as successors to separate state and federal thrift associations. Key issue focused on the legality of a \$25 million loan portfolio owned by client that was arranged by the state thrift. Settled the litigation by cross-claiming against FSLIC for indemnity, and using FSLIC settlement payment to settle client's alleged liability to Department of Corporations.

Overview

Keith Murphy is a client-focused partner concentrating in corporate reorganization, bankruptcy, litigation, fiduciary representations and creditors' rights, including representations of creditors in the aerospace industry. Keith also has significant experience representing trustees in brokerage house liquidation proceedings commenced by the Securities Investor Protection Corporation, and representing court-appointed receivers in investment fraud proceedings initiated by the Securities and Exchange Commission (SEC) and the Commodities Futures Trading Commission (CFTC). Keith's representation of clients across other industries, including manufacturing, retail, aerospace, steel and health care, provide him with the background and experience needed to address complex commercial and litigation issues.

Experience

- A lead attorney on the global team representing the SIPA Trustee for the liquidation of Bernard L. Madoff Investment Securities LLC and the consolidated estate of Bernard L. Madoff in connection with Madoff's multi-billion dollar Ponzi scheme. Working with the litigation and investigation teams, Keith is pursuing hundreds of avoidance actions seeking to recover assets from banks, feeder funds and others for the benefit of defrauded customers and the estate. In connection with his role, he has been involved in the litigation and outcome leading to many reported decisions, including:

- *Fox v. Picard (In re Bernard L. Madoff)*, 848 F. Supp. 2d 469 (S.D.N.Y. 2012)
- *Picard v. Picower*, Adv. Pro. No. 09-1197, ECF No. 43 (Bankr. S.D.N.Y. Jan. 13, 2011)
- *Picard v. Fox*, 429 B.R. 423 (Bankr. S.D.N.Y. 2010)

Obtained approval of a \$7.2 Billion settlement with the estate of Jeffrey Picower and the issuance of a permanent injunction by the Bankruptcy Court in connection therewith. On appeal, the District Court affirmed the approval of the settlement. The District Court also affirmed the finding that certain creditors' lawsuits were duplicative and derivative and therefore void, and affirmed the issuance of the permanent injunction. The matter is on appeal and fully argued before the Second Circuit Court of Appeals.

• *Lautenberg Found. v. Picard (In re Bernard L. Madoff Inv. Secs., LLC)*, No. 11-5421, 2013 WL 616269 (2d Cir. Feb. 20, 2013)

- *In re Bernard L. Madoff Inv. Securities, LLC*, No. 11-CV-2135, 2011 WL 7981599 (S.D.N.Y. Dec. 05, 2011)
- *Picard v. Stahl*, 443 B.R. 295 (Bankr. S.D.N.Y. 2011)

Successfully thwarted third-party actions against Madoff family defendants which threatened to interfere with the SIPA Trustee's litigation and recovery efforts. Following litigation, the Trustee obtained extension of the automatic stay to third party actions and issuance and affirmance of preliminary injunctions from the Bankruptcy Court and District Court. In 2013, the Second Circuit Court of Appeals issued a summary order affirming the Bankruptcy Court's ruling in favor of the Trustee under section 105(a) of the Bankruptcy Code.

- *Picard v. Maxam Absolute Return Fund, L.P.*, 474 B.R. 76 (S.D.N.Y. 2012)
- *Picard v. Maxam Absolute Return Fund, L.P.*, 460 B.R. 106 (Bankr. S.D.N.Y. 2011)

Successfully defended against an action filed against the Trustee in the Cayman Islands by obtaining rulings affirming the extraterritorial reach of the automatic stay and obtaining an injunction against the moving parties from the Bankruptcy Court, which was affirmed by the District Court. Experience

- Litigating fraud and breach of fiduciary duty claims against a debtor's principal for actions that included the post-petition diversion of more than \$18 million of estate assets to a shell company created just prior to the petition date.
- Part of the litigation team in 10-year litigation for a large utility/telecommunications client that resulted in the only insolvent utility/telecommunications bankruptcy to return to solvency, with over \$100 million of litigation recoveries. The case involved three separate plaintiff's suits against directors, officers, an investment firm, and a major law firm; defense of multiple creditor claims; and resulted in an asset pool that paid unsecured creditors and preferred shareholders in full, and paid a distribution to common stockholders.
- Successfully reorganized six related real estate development entities with payment of all creditors in full, with interest.
- Represented committee of unsecured creditors in case regarding a bankruptcy court's authority to recharacterize a transaction, subsequently leading the Ninth Circuit Court of Appeals to reverse published case law related to the matter.

Overview

David Rivkin is a member of the firm's litigation, international and environmental teams and is co-leader of the firm's national appellate practice. He has extensive experience in constitutional, administrative and international law litigation and has been involved in numerous high-profile cases. With his prior experience in the government sector, David draws on a wealth of knowledge when providing compliance advice to companies and handling enforcement proceedings before government agencies on issues arising out of multilateral and unilateral sanctions, the Foreign Corrupt Practices Act (FCPA), anti-boycott issues, bankruptcy and financial fraud matters, and environmental and energy issues.

David has developed and implemented legislative, regulatory and litigation initiatives for two presidential administrations. Over the years, he has published hundreds of articles, op-eds, book reviews and book chapters on a variety of international, legal, constitutional, defense, arms control, foreign policy, environmental and energy issues for various newspapers and magazines, including *The Wall Street Journal*, *The Washington Post*, *The New York Times*, *USA Today* and *The Los Angeles Times*, and has been a frequent commentator and guest on TV and radio shows including ABC, CBS, NBC, CNN, Fox News, NPR and PBS.

Experience

- David is the lead counsel for the 28 states that have challenged the constitutionality of the EPA's Clean Power Plan and has been representing them in this matter in the DC circuit and the Supreme Court.
- David is the lead counsel in the Section 1983 Civil Rights Action case brought against several Wisconsin state government officials who were alleged to have initiated a sprawling John Doe investigation directed solely at conservative and right-of-center policy advocacy groups in the state.
- As part of BakerHostetler's role as court-appointed counsel to the Securities Investor Protection Act (SIPA) Trustee for the liquidation of Bernard L. Madoff Investment Securities LLC, David is responsible for the appellate litigation in more than half a dozen Second Circuit and Supreme Court cases.
- David is a lead lawyer on a team that represents a former London-based JPM managing director whose cooperation was sought in the investigation related to a multibillion-dollar trading loss for the bank. Through aggressive defense of the former managing director and utilizing skills honed during involvement in investigating complex financial frauds, David and the team secured a rare non-prosecution agreement with the Justice Department and agreements with other regulatory authorities, which enabled the client to cooperate with federal prosecutors in the continuing investigations.
- Through arguments before the district courts, Fourth Circuit and Seventh Circuit Courts of Appeals, David successfully defended several Bivens actions brought against former Secretary of Defense Donald H. Rumsfeld.
- With considerable experience in litigation involving national security-related matters, David represented Senators McCain, Graham and Ayotte in the Second Circuit case, *Hedges*, which entailed a challenge to the constitutionality of the military detention-related provisions contained in the National Defense Authorization Act.
- When 26 states challenged the constitutionality of Medicare revisions under the Patient Protection and Affordable Care Act and argued that an individual mandate was beyond the powers granted to Congress under the Commerce Clause and the Necessary and Proper Clause, David represented the states and was lead outside counsel in the District Court and Court of Appeals. The United States District Court for the Northern District of Florida ruled in favor of the states at the case's outset, with David handling both the briefing and oral arguments. The government

appealed the case to the Eleventh Circuit, where David continued his involvement and the original decision was affirmed.

- David represented the Republic of Croatia before the International Criminal Tribunal for the Former Yugoslavia and the International Court of Justice for a number of years on a wide range of issues involving international humanitarian law and the laws of war. He was Croatia's lead lawyer in both venues and handled numerous rounds of briefings and oral arguments.
- David has represented corporations in alien tort statute and civil RICO litigation, as well as in challenges to federal agency actions and constitutional challenges to state statutes. He also represented the State of Texas in the U.S. Court of Appeals, D.C. Circuit, during a challenge to several of the EPA's rules that sought to regulate greenhouse gases under the Clean Air Act.
- David handled the development and implementation of President George H.W. Bush's deregulatory initiatives, which entailed the review of all existing federal regulatory strictures and the application of a more rigorous, cost-effective standard to new regulations. His substantive areas of responsibility included international sanctions, energy, environment and tax issues.
- David played a leading role in the development of FERC Order 636, which introduced major changes to the regulation of the interstate natural gas pipelines, and simultaneously served as the Special Assistant for Domestic Policy to then Vice President Dan Quayle.

Experience

- Led the Special Committee of the Wendy's International Inc. board of directors in a strategic review and \$2.3 billion merger, advising the committee on the constraints and authority it held to ensure appropriate functionality. The client was subjected to continuing commentary from activist shareholders, which required careful management of the client's activities in the public eye, as well as of the relationships among members of management and third parties so as not to compromise activities and maintain the integrity of the committee process.
- Managed conflicts of interest in representation of the Strategic Review Committee of a corporation with a controlling shareholder in strategic review and a \$780 million merger with another retail business under common control. Advised the Strategic Review Committee on the scope of its authority and duties, and developed close working relationships with financial and other advisers that facilitated open communication during contentious situations.
- Worked closely with the Audit, Conflicts and Governance Committee of the general partner of an energy corporation in a \$3.3 billion merger with a publicly traded energy partnership, as well as with the committee's financial adviser. Ensured that the client had comprehensive details in order to make informed decisions during the combination of similar businesses. Developed an in-depth understanding of the client's operations to assess how the merger and subsequent changes in business would affect the client.
- Represented an oil and gas exploration and production company in the acquisition of an independent oil and gas company via a \$4.5 billion merger. Maximized the client's negotiating position by managing the pace of the transaction and creating an effective frequency of dialogue with the selling side.
- Represented controlling shareholders in simultaneous going-private acquisitions of a gaming and development corporation and a company conducting sports-related wagering. Paid particular attention to conflicts of interest arising for the client in order to anticipate the needs of the transaction counterpart in moving the agreement forward. Remained sensitive to complications faced by the client and seller, and structured a mutually beneficial acquisition based on an understanding of the imperatives of the seller and limits on appropriate actions.
